

# AXIS BUSINESS CENTER

6030 CLYDE PARK  
BYRON CENTER, MI

## THE OPPORTUNITY

Seeing an opportunity in a white hot Grand Rapids industrial market, Vision looked to fill the need for new and functional space for larger tenants. The confidence in our research and experience lead us to break ground on Axis Business Center as a spec project with no tenants secured. The project totaled 116,480 square feet complete with docks in each suite, office buildouts, and a fantastic location.

## THE RESULT

Just one year after completion all 116,480 square feet at Axis Business Center are set to be full. Once leased, Axis will be Visions second speculative project to be 100% full. This was a great team effort, and Visions largest industrial development yet.

## CURRENT TENANTS
